

The Brockmoor Foundry Company Ltd

Environmental Policy

The Brockmoor Foundry Company is situated in the West Midlands and produces and machines ductile iron castings up to 150kg in weight on mechanised and semi mechanised machines for the engineering and commercial vehicle industries world wide.

The company recognises its operations impact on the environment and is committed to protect the environment by a continual improvement of its environmental performance and protect the environment.

The Environmental Management System applies to operations carried out directly by The Brockmoor Foundry Co Ltd on the two adjacent sites as defined in the company description and outlined by the company boundary maps. The EMS is based upon and audited against the International Standard ISO 14001 to achieve and monitor these improvements.

To achieve this aim the company will:-

- Comply with the applicable legal requirements and with other requirements relating to its environmental aspects.
- Endeavour to ascertain the customer's and other stakeholders requirements and expectations
- Assess the risks environmental to business of the company's activities
- Assess the environmental impact both locally and globally of all the processes and operations within the company and agree objectives and targets for their reduction where so ever possible.
- Seek to prevent pollution by continual improvements in the choice of processes and materials.
- Set objectives and targets for a continual reduction and beneficial recycling program, regularly monitoring and reviewing the achievements against their objectives and targets.
- Undertake training programs to ensure that all employees are aware of and comply to the company's environmental system.
- Ensure good communication channels exist for the Company employees, local communities, regulators, contractors and customers.
- The Company will undertake to inform all Subcontractors and Visitors and ensure they are aware of the Companies Environmental policy.
- Allow access to the policy document to all interested parties via the Company's web site.

The Environmental Committee and the Quality Department will undertake regular reviews of the Environmental Management System and report their findings to the board of **The Brockmoor Foundry Company** to formulate and plan activities in accordance with the continual improvement program.
